

so local, so fresh
so sweet

EVERYONE IS BUZZING ABOUT
SICKLES' OWN HONEY, HARVESTED
RIGHT HERE ON THE FARM

Every few weeks, our beekeeper visits our hives on the farm and collects the liquid gold our busy bees have been working hard to create. Each batch has a unique flavor that depends on the plants our bees visit. We make sure each batch is as sweet as can be before we bottle it in the store. So grab a bottle while you can, our honey is limited and flies off the shelves (pun intended.)
