

SICKLES

MARKET®

SHARING QUALITY SINCE 1908

2019 Tropicals

- **CHINESE EVERGREEN**
 - Low to moderate light
 - Keep soil moist, but not wet, do not overwater
- **BROMELIAD**
 - Bright, indirect light
 - Replenish water in the reservoir when it dries out (at least every 10 days)
 - Lightly water the roots weekly in summer, less often in winter
 - Do not allow to dry out completely in any season
- **CACTUS**
 - Bright light
 - When potted, prefers light watering, as little as once a month
 - Do not let dry out completely
 - In winter, water lightly with a pump spray
- **CALATHEA**
 - Bright, indirect light, no direct sun
 - Keep soil moist, but well-drained, use distilled water or rainwater, sensitive to fluoride and salts
 - Cold sensitive, keep away from drafty windows and air vents
- **CITRUS**
 - Bright, direct light, all day, (5-6 hours a day)
 - Prefers moist, but well-drained soil
 - Spring & summer: keep soil slightly moist at all times.
 - Fall & winter: allow top inch of soil to dry between waterings

SICKLES

MARKET®

SHARING QUALITY SINCE 1908
